## SUMMARY

I am a motivated and enthusiastic second-year student at KL University with a strong foundation in programming languages such as C, Java, Python, HTML, and CSS. I also hold a participation certificate in front-end web development. Currently honing my skills in JavaScript, I achieved a remarkable 9.62 CGPA in my first year. Eager to apply my knowledge and contribute to meaningful projects through an internship opportunity.

## SKILLS

CSS HTML python Java javaScript C

Microsoft tools Github Git

## PROJECTS

### Hangman game

This is a project I did in my first year of under graduation. This project involves Python. In this game we have to guess a 'n' lettered word to save a man from hanging.

### X and O game

I successfully conceived and implemented a Python-based multiplayer game during my first year of undergraduate studies. This interactive project allows two participants to engage, with one selecting 'X' and the other 'O'. The objective is to achieve a winning combination of 'X's or 'O's in a row or diagonal to secure victory.

### Basic e-commerce website

This is a project done by using HTML and CSS. In this project we created a website where you can buy any clothes. By doing this project I also got a participation certificate from my university on participation in hackathon.

### My portfolio website

I independently developed and designed my professional portfolio website, utilizing HTML and CSS for an optimal viewing experience on laptops and larger screens. Please find the link attached for your convenience. I recommend viewing it on a laptop or large screen to fully appreciate the design and layout.

## PASSIONS

☆ Playing Badminton

☆ Teaching concepts

💡 Coding

❤️ Listening to music

## EDUCATION

- 2022 - NOW • B.Tech in Artificial intelligence and Data science  
KL University, Vijayawada, AP, India
- 2020 - 2022 • intermediate education  
Narayana junior college, Eluru, AP, India
- 2020 • Schooling up to 10th  
Narayana School, Eluru, AP, India
